To expand my experience and knowledge in the graphic design industry. Growing with my skills to push forward and have better opportunities within this field.

EXPERIENCE

NOVEMBER 1ST 2023-PRESENT

STOCKING ASSOCIATE, WALMART

Unloading trucks and stocking up floors. We use bailers and unloading belts to sort out our trucks which usually range from 2000-3000 items or 1 to 2 trucks total day to day. After unloading we bring out anything such as groceries or electronics carts/palletes. Afterwards, we stock and zone which usually means to fix up and make the aisles look professional and cleaned up for the customers the next day.

APRIL 25TH 2023- NOVEMBER 6TH 2023

SHIFT-MANAGER, WENDYS

Over the time I've worked at this location, I worked my way up to shift manager position to the point where I have learned to manage money, lead shifts with multiple employees, closing the restaurant myself, and count all inventory and times in our drive thru every close.

JUNE 24TH 2022- JUNE 4TH 2023

KITCHEN ASSOCIATE, MOVIE TAVERN

At the movie tavern we were taught basics on cooking and food preservation. As well as salad stations, pizza stations, fried foods and grill. On Salads I learned for wraps and salad bowls, on Pizza I was taught mostly just pizza, but also was taught to make pretzel bites and chicken n' waffles. With fry, I was taught to cook tenders, fries, wings, etc. The grill station was mostly burgers, hot dogs, and quesadillas but I barely went on grill. The kitchen did have a legitimate line up and all the equipment was up to perfection with everyone in cooperation.

EDUCATION

AUGUST 2018 - JUNE 2021

High School Diploma, Carlton J Kell Highschool

Graduate of year 2021, I moved on to Chattahoochee Tech to study Advertising and graphic design, in the Design and Media Production Branch.

AUGUST 2021- PRESENT

Associate degree, Chattahoochee Technical College

Currently attending Chat Tech, studying graphic design and aspiring to study advertising and publication for advertisements.
